MINING, BUSINESS AND STOCKS

LOWERING PRICES ON THE EXCHANGE

Every Stock Named During Today's Early Calls Quoted Down at the Close.

TINTIC ISSUES MOST ACTIVE.

Ulntah Treasure Hiff Held Its Own on Open Board-Closing Quotations and Sales.

The bears hall their own, way on the floor of the Sait Lake Stock and Mining Exchange today. Lower prices prevalled all along the line and without a single exception the stocks which out a single exception the stocks which participated in the selling were marked down. The eastern market conditions were far from being satisfactory and that no doubt, contributed towards the lawering of the local issues. The Tinite stocks, with the exception of Seven Troughs, and Mountain Lake, were the only sellers. May Day started off at 75 cents and then made its way down to 72 cents, recovering slightly at the close. Uncle Sam Consolidated dropped to \$1.574; while Beck Tunnel Consolidated was hough? as low as \$1.674. Sioux Consolidated quit at 53 cents and Colorado at \$7.25 on a huyer. on a huyer.

on a buyer.

The most active of the unlisted stocks was Ulntah Treasure Hill and several hundred shares were brought out at 43 and 44 cents. Newhouse recorded a sale of 50 shares at \$9.87%.

The closing quotations and sales were:

NEVADA DOUGLAS STRIKE. Fine Body of Copper Ore Opened on The 550-Foot Level.

Undoubtedly one of the greatest strikes ever made on the already famous Ludwig of the Nevada Douglas company was recorded this week in the shape of the uncovering of a magnificent body of sulphurets of copper

at the 550 foot level. In spite of the fact that those best acquainted with the property had come to believe that it was absurd to expect anything greater from the great producer, long since recognized by the ablest copper authorities as one of the largest red metal nines in the west, the find of this week seems certain to place it in a class by itself, says the Yerington Times.

a class by itself, says the Yerington Times.

The story of the discovery and the developments leading up to it follows: In driving a cross-cut from station A at the 500 foot level a water course was at the 500 foot level a water course was encountered carrying seventy-two hundredths of 1 per cent copper. Simultaneously a chalcocite was encountered in a white quartz gangue lying against the limestone. From appearances it is the same fissure that outcrops fo prominently on the surface. From this point cross-cuts were run to the southeast and northwest and a to the southeast and northwest and a lime shale impregnated with sulphides and native copper encountered. This was some six week ago. Within the past three weeks a cross-cut was started to the east on the water course and the result is a body of ore 20 feet wide on each side thereof. Cross-cuts are now in 30 feet and for the entire distance the ore is of shipping grade. At the present time the face shows three feet of a black mud averaging 52 per cent copper. Cross-cuts will be started north and south to determine the length of the shoot. On the nort 550 a body of ore was broken into, 20 feet length of the shoot. On the nort 550 a body of ore was broken into, 20 feet wide and 75 feet long, of a dark brown limonite carrying native copper and cuprite of shipping grade. A winze is being sunk from the 550 to connect with the drift from the 650 to form an air connection.

PATENT ORDERS ISSUE.

Surveyor General Approves Title on Utah Mineral Surveys.

The United States surveyor general or Utah yesterday issued orders for atents on the following mineral sur-

ELY PEOPLE ANGRY.

Build Freight Depot.

The citizens of the old town of Ely are up in arms against the Nevada Northern Railroad company and have brenght suit against it to compel it to build a freight depot in their town. Ely city is a new town located a few miles down the canyon from the old town. The railroad company is interested in this enterprise and, naturally, the officers of that corporation are using every influence to make it the metropolis of eastern Nevada. A new passenger station has just been completed in the new town and it appears to be the avowed intention of the railroad to block in every possible way the building up of the ploneer townsite and one of the means to gain this end is to give the latter no recognition in the way of depots. Build Freight Depot.

pots.
The Ely people are also indignant because the railroad company has named the new town Ely City and there is some talk of an injunction suit.

METAL MARKET

George L. Walker Says Money Situation is At Bottom of Extreme Reversal.

CONDITIONS WILL BE NORMAL

But May Take Two or Three Months -No Big Accumulation of Copper Exists.

Another drop in the price of copper was reported today and accordingly the owners of copper mines, as well as the holders of copper stocks are beginning to wonder where it is all going to end. Those who made the perdiction a few weeks ago to the effect that the metal would not drop below 17 cents have been disappointed. Others have said that the decline would not end until 15 cents a pound was recahed, and then they would look for a gradual recovery until the metal settles around 18 cents again.

George L. Walker, the Boston copper authority, and editor of the Boston

authority, and editor of the Boston Commercial, looks to the future, however, with a great deal of optimism, and his last letter on the subject of metal markets says:

"All the large producers are now a unit in asking 18½ cents for lake and 18 cents for electrolytic copper. They have maintained this position for a week or two past, and a considerable volume of business has been done. Quite heavy sales of electrolytic have been made in Europe at 18 cents, and domestic consumers quite generally have been buying for September delivery. Sales of lake have been made recently at 18½ cents. These prices, therefore, make the market for the time being, and it is very good opinion that they will be maintained throughout the remainder of the year.

"The money situation is at the bottom of the extreme reversal of conditions which have come; about in the

on of the extreme reversal of cou-lons which have come about in the netal market in the past six or else weeks. When the American Telepho-company failed to ruise money for the usual yearly extension of its lines a the Western Electric company was a result forced to close down its well the chance from an expess of for the Western Electric company was as a result forced to close down its wire mill, the change from an excess of consumption to an excess of production began. The money market must be blamed. Since then it has been practically impossible for independent telephone companies, street railroads, and a very great majority of other electrical enterprises to raise money for new construction work. The consumption of bopper has thus been arrested temporarily, probably to the extent of 25 per cent. This condition will continue until money is easier; and money will grow easier very rapidly if the retrenchment in general business conditions continues. It was the abnormal volume of business that used up the world's money supply. Business conditions are getting back to normal, and within two or three months we shall surely have normal money market conditions again.

"The claim that there is an accumula-tion of 200,000,000 to 300,000,000 pounds of copper is absurd. It is possible that producers hold a total of 100,000,000 to 150,000,000 pounds of unsold copper which is refined and ready for consumption. To claim that the amount is greater than this, however, is to argue that consumption has decreased 75 per cent within three months, which, of course, is impossible. The limited amount of investigation which I have been able to make since my return from the west convinces me that all the unmanufactured copper above ground is held by producers. Under normal conditions consumers would be carrying at least 100,000,000 pounds in their working stocks. As soon as money conditions ease up slightly this copper will change ownership. In the meantime there is no other class of corporations in existtion. To claim that the amount is greatease up slightly this copper will change ownership. In the meautime there is no other class of corporations in existence, not excepting the banks, which is in as good a condition to finance 100,000,000 to 200,000,000 pounds of copper as the producers themselves. Their treasuries are strained to the bursting point

priced copper.
"The reversal of conditions has given The reversal of conditions has given the trade a severe "joit," and it is natural, therefore, that pessimistic opinions should be heard on every side. It is not impossible, of course, that "the worst is yet to come;" But I feel perfectly satisfied myself that the world's expert production during the coming cepper production during the coming two or three years will be absorbed and consumed at 18 cents per pound. provided producers are wise enough to be united and firm in asking that price. It must be remembered that electrical development the world over has only

NEVADA MAGNATES HERE.

Malcolm L. McDonald and Donald

Gillies Come in from Tonopah. Malcolm L. McDonald, Donald B. Gil-Donald and Gillies were seen in their room, where they were busy inspecting him prints, maps, etc., and everything indicated that something big was on, but neither had anything to give out to the public just at this time. Mr. McDonald said, however, that news

We have an order

Common Stock in Want to Compel Nevada Northern to Utah - Idaho Sugar Co.

Call and see us.

send us word as to number of shares

of Importance might be available within a comparatively short time. "Conditions are fast becoming normal in the camps of Nevada," remarked Mr. McDonald, "and things thereabouts, especially in Tonopah, are progressing very satisfactorily. We expect to be in Sait Lake two or three days, and every moment of our time while here will be taken up with business affairs."

run in the finest possible weather and the presence of a large crowd of peo-ple, including King Edward. Wool Winder, who ran second to Richard Croker's Orby in the derby, was the favorite in the betting at 1 to 10.

CONFLAGRATION IS

Mines Manager Clarence E. Allen of the United States Smeiting, Refining & Mining company, is at the Rich-mond-Eureka mine at Eureka, Nevada, Transportation facilities have been greatly improved, and according to ad-vices received from an authentic source it has been learned that about 200 tons a day is coming from this property. SAN FRANCISCO MARKET. James A. Pollock & Company furnish the following quotations on Nevada mining stocks from San Francisco to-

WOOL WINDER WINS THE ST. LEDGER STAKES.

London, Sept. 11.—At the Deneas-ter race meeting today the St. Leger stakes, 25 sovereigns each for three-year-olds, about one mile, six furlongs and 132 yards, was won by Wool Win-der, Battling Lass was second and Ac-calm was third.

Twelve horses started. The race was run in the finest possible weather and

RAGING IN CANTON, CHINA.

Hongkong, Sept. II.—According to news just received here a configration is rag-ing at Canton, where several large kero-sene stores are on fire. The loss probably will be heavy.

LONDON TIMES COMMENT ON VANCOUVER RIOTS.

London, Sept. 11.—The Times this morning in an editorial article says it is convinced that there is now full and ample confirmation of the belief that the anti-oriental riots at Vancouver were actually organized by American labor agitators, "the men whose intrigues brought San Francisco under domination of Ruef and Schmitz."

The paper says it believes "this shameful riot upon British subjects was gotten up by officials of American labor organizations for the purpose of conveying to M. Ishii, the member of the commercial department of the Japanese foreign office, who is now at Vancouver, the feelings of the labor element of the Pacific coast.

Accounting for the race prejudice evi-

Pacific coast.

Accounting for the race prejudice eviienced in such disturbances, the paper
ays: 'The plain truth is that on acount of his thrift and industry, quite
s much as on account of the low
eages for which he works, the Asiatic
regarded as a dangerous competitor
a the labor markets which the labortes want to keep as a menopoly in want to keep as a monopoly in

ish soil, whatever color or race, must be unflinchingly upheld by the whole authority of the local government and the imperial crown."

JOHN SMITH MONUMENT.

Unveiling Exercises at Jamestown Exposition Are Postponed.

position Are Postponed.

Norfolk, Va., Sept. II.—Because the contractor having the work in charge of erecting the Capt. John Smith monument for the United States government on Jamestown island, has not completed the contract in the scheduled time, the unveiling exercises, which were to have been held today, have been postponed. It will probably be several weeks before the program will be earried out.

The statue is considered the best work of William Couper, the New York sculptor, It was east in bronze by the Gorham company, stands eight feet six inches in height, and shows the adventurous Capt. Smith in soldierly pose, it will be erected on a commanding site at Jamestown island, on a plot of land selected and owned by the Association for the Preservation of Virginia Antiquities.

SEVEN YEARS FOR CHESTER B. RUNYAN.

New York, Sept. 11.—Chester B. Runyan, paying teller of the Windsor Trust company, who confessed to stealing \$100,000 of the company's funds, was sentenced today by Judge Whitman, in the court of general sessions, to serve seven years in Sing Sing prison.

STANDARD OIL CO.

Applies for Writ of Supersedeas But No Action is Taken.

Chicago, Sept. 10.—The Standard Oll company of Indiana today applied to the United States circuit court for a writ of supersedeas suspending the operation of the recent hearing set for by Judge Landis in the United States district court, in which the penalty asdistrict court, in which the penalty as-sessed against the company was of \$29,000,000. Judge Grosscup, before whom the application was made ,de-clined to take action until he had heard arguments from the attorneys on both sides. The arguments consumed the sides. The arguments consumed the greater part of the day. The attorneys insisted the supersedeas bond, if a writ of error was granted, should be as large as the fine assessed against the company. The attorneys for the company argued for a bond of \$1,000,000. Judge Grosscup, while not specifying the amount of the bond, declared that he thought it should be equal at least to the total value of the Standard Oil company of Indiana.

Opposing counsel failing to agree on any satisfactory arrangement as to the bond, Judge Grosscup took the matter under advisement, postponding action until Sept. 17.

NO OFFICIAL WORD ABOUT ATTACK ON HINDUS.

Washington, D. C., Sept. 10.—Not a word has been heard from any official course at the state department relative the reported attack upon the Sikha Beilingham Wash, last week. It believed that the British governent, through its consular agent at attle, is making an investigation of earlair. It is surmised that in this se the British government will find policy to move very cautiously making representations to America, because these representations might be dilly adopted by the Japanese government will find the control of the process adopted by the Japanese gov-as the basis for similar de-apon the British government in an with the attack upon Japon with the attack upon Japan Vancouver. It is pointed out is British government may be to extreme moderation in the am case, by reason of its ge of the general animosity and the Hindus by Anglo-Sax-every part of the world where in every pait of the world where two classes come in contact. In h Africa only Natal affords any-glike fair treatment to the Hin-and the other states of the confed-ton have practically driven them of the country. In Australia also same treatment is meted out to undesirable Hindus and the Britpetition with white labor in its own colonies, according to the view here, would probably be very much embar-rassed in finding suitable language in which to frame a protest to America.

HUSLER'S FLOUR!

UNION PACIFIC CHARGED WITH DISCRIMINATION.

Lincoln, Neb., Sept. 10.—Claiming that they represent 42,000 members of the United Commercial Travelers, J. W. Nation and F. W. Hawken, of Fremont, today charged the Union Pacific railroad with gross discrimination in passenger traffic, and demanded the state railway commission to make an immediate investigation. They allege that the Union Pacific has barred local passengers from trains Nos. 1, 2, 7 and 8, between Council Bluffs and the Wyoming line. Hawken and Nation submit that they were refused tickets and were prevented from going from Council Bluffs to Fremont.

The railroad officials claim that the interstate traffic demands that the local passengers be barred. A hearing will be granted

ADVICE TO FRANCE.

Rome, Sept. 10.—A number of the newspapers of Italy advise France to settle the troutlesome Moroccan question by marchitg on Fez.

La Tribuna, La Roma and others refer to "France's precarious situation," and declare she ought to clear herself at any cost.

The Popolo Romano, the organ of the Triple alliance, advises France to

Triple alliance, advises France to march straight to Fez, and adds that "no member of the alliance would disapprove an act so necessary to ter-minating this unbearable situation."

COMMERCIAL.

New York, Sept. 11 .- Opening prices of New York, Sept. II.—Opening prices of stocks were higher but the market was inclined to react within a few minutes of the opening. Heavy offerings of metal stocks drove Amalgamated Copper and Anaconda a point below yesterday's final price and carried American Smelling down from 97% to 96%. The reaction in the railroad list was nearly as large, but a good demand soon arose for the western stocks and prices were made better than at the opening.

WOOL.

BOSTON BOSTON.

Boston, Mass., Sept. 10.—The local wool market is feeling the better conditions in the money market. Transactions cover nearly all the domestic lines and in some grades a number of fair sized sales have been consummated. Prices hold steady in spite of the duliness.
